

MPA38 COMPACT is a portable antenna suitable for the applications where a roof antenna cannot be used because of blockage of the satellite when parking near the trees or if there is no enough space on the roof. Anti-Theft Security feature is a precaution to prevent theft. SIS is Satellite Identification System, it comes as a standard feature to identify the satellite with "Digital Satellite Signal Processor" by analyzing the satellite data.

Control Panel

MPA38 COMPACT

Portable, Easy to setup and use,
Auto search,
Fast satellite change, Anti-theft security,
Light weight,
Single connection,
Auto-skew and GPS options

	MPA38 COMPACT
Antenna Type	Cassegrain
Number of RF Outputs	1
Standart Features	SIS, DVB-S2, Anti-Theft Security, USB update, Control Panel
Options	2 outputs, Autoskew, GPS, Power Adaptor
Number of Satellites	6
LNB Type	Universal Twin
Frequency Band	Ku Band
Frequency Range	10,7 GHz - 12,75 GHz
Antenna Gain	32,2 dBi@11,8 GHz
Min. EIRP	49 dBW
Polarization	H/V
Motor Control	2-axes stepper motor
Azimuth Range	680°
Elevation Range	0° -80°
Azimuth Speed	40° / sec
Elevation Speed	40° / sec
Alignment Time	less than 10 seconds
Controlbox Connection	Single coax cable
Storage Temperature	-30°C ~+70°C
Operating Temperature	-15°C ~+50°C
Operating Voltage	12...24 Volt DC
Antenna Diameter	38 cm
Control Box (WxHxD)	18x13x4 cm
Dimensions (LxWxH)	42.6x42.6x41.7 cm
Weight	5 kg
